

fiberon® CitySide Railing

Expand the possibilities.

Explore the clean, minimalist design of CitySide railing, now with even more options to add beauty and functionality to your home. Whether you want to create a serene backyard retreat with an unobstructed view, or an elegant outdoor space to host dinner parties, choose customizable CitySide railing to create the aesthetic that best fits your needs.

New for 2023

Choose from two distinct top rail profiles – Contemporary and Traditional – that can be paired with sleek black aluminum balusters.

NEW Contemporary
(Matte Black)

Traditional
(Matte Black)

NEW Contemporary Rail Kit for Glass Infill

- Contemporary 6 ft. line rail sections can also be paired with tempered glass panels (glass sold separately).

NEW Over-the-Post Drink Rail Kit

- The optional over-the-post drink rail kit can be used with both traditional and contemporary top rail profiles.
- Attaches a deck board to your railing, can match or complement deck surface.
- Installs on 6 ft. and 8 ft. line rail sections.

fiberon® CitySide Railing

Metal baluster sections sold as follows:

- 6 and 8 ft. line or stair sections for 36 in. rail height.
- 6 and 8 ft. line or 6 ft. stair sections for 42 in. rail height.

Note: Railing sections include top and bottom rails, square metal balusters, spacer clips and crush block with screws. Railing brackets are sold separately or pre-welded to metal posts.

Metal posts sold as follows:

- Line Post including two sets of pre-welded brackets on opposing sides.
- End Post including one set of pre-welded brackets on one side.
- Corner Post including two sets of pre-welded brackets on two adjacent sides.
- Stair Post with no pre-welded brackets.
- Brackets sold separately.

Note: Composite post sleeves can be paired with aluminum rail sections in addition to aluminum posts.
