

Railing 101

Change your outlook.

Railing helps complete the look of any outdoor living space with beauty and durability. Fiberon® railing is available in a variety of styles and colors that can be paired with any of our decking to create a custom look

Fiberon Railing Portfolio

Railing Material

While both are virtually maintenance free compared to traditional wood railing, composite and aluminum railing offer unique features and benefits that are best suited for different project needs.

Composite

- Choose from multiple color and profile options.
- Easily cut with the same tools and blades used for cutting wood.
- Utilizes recycled plastics.
- A variety of price points provides options for any budget.

Aluminum

- Offers clean sight lines, a premium powder-coat finish and structural surface mount posts.
- Easy to install, featuring pre-welded post bracket designs.
- Highly tolerant to drastic fluctuations in temperature.

Railing Components

CitySide

Top and Bottom Rail

Fiberon offers products to complement a variety of architectural styles with three profile options and two materials. Our composite railing is available in three colors.

Infill

The section between the top and bottom rail that provides safety and decorative customization. Fiberon provides composite and aluminum infill options to meet any project needs.

Post Caps

Post Skirts

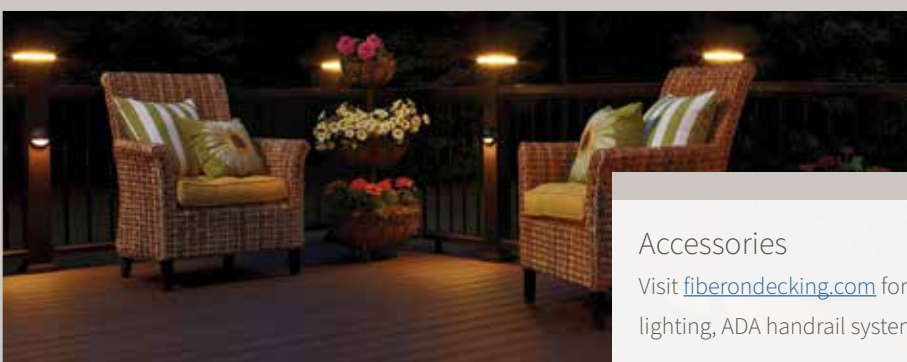

Post, Post Sleeve, Skirt and Cap

Fiberon® composite post sleeves can be used over a standard 4x4 post or with our metal surface mount post. Fiberon aluminum CitySide posts are slim and sturdy, designed for surface mounting with pre-welded brackets.

Brackets

Provide the connection between rail and post to ensure a strong, safe rail section. Fiberon offers a variety of bracket styles and connection options. Availability is based on your selected profile design.

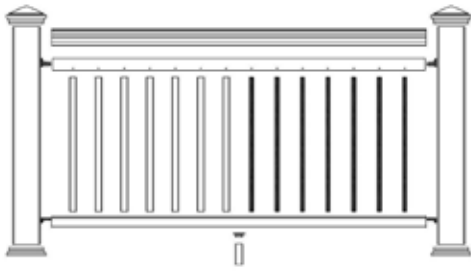

Accessories

Visit fiberondecking.com for information about Fiberon lighting, ADA handrail systems and other accessories.

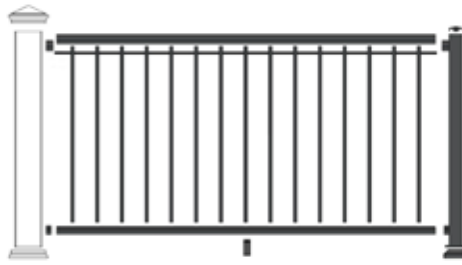

Railing Assemblies

CountrySide

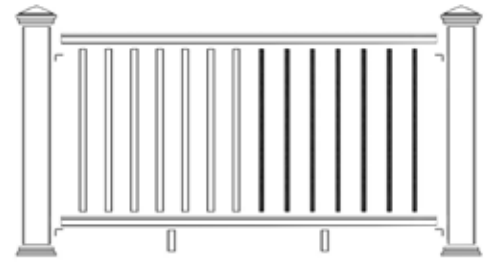

CountrySide railing has screw-in balusters that provide a sturdy, no-rattle system and hidden brackets for a seamless rail-to-post connection.

CitySide

CitySide railing features drop-in balusters, snap-in spacers and integral pre-welded post brackets for easy installation.

Brio

Brio railing has a simple drop-in baluster assembly and easy-to-install brackets.
